Warrant for Annual Meeting

STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Wilton, in the County of Hillsborough and State of New Hampshire, qualified to vote in Town Affairs:

You are notified to appear at the Town House in said Wilton on Tuesday, the eighth day of March next, at nine o'clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers as prescribed by the Public Statutes.
2. To hear the reports of Town Officers, Agents and Committees and pass any vote relating thereto.
3. To see what sum of money the Town will vote to raise and appropriate to defray town charges for the ensuing year, including Care of the Poor, Highways and Bridges, Street Lighting, Water Works and Sewers, State and County Tax, Interest on Debt, Health Department, Town Officers' Salaries and Expenses, Police and Fire Departments, Moth Extermination, Care of Cemeteries, Serial Notes and Bonds, Free Library, Patriotic Purposes, State Aid, Trunk Line Maintenance and Construction, and miscellaneous items.
4. To see if the Town will grant the free use of the Town Hall for the following purposes: Roy Bent Post No. 10, American Legion, and the Wilton Fire Department for their annual party, for the Roy Bent Post No. 10, American Legion, and the Wilton public schools for Memorial and graduation exercises.
5. To see if the Town will grant the usual discount on taxes.

6. To see if the Town will authorize the Selectmen to borrow money in anticipation of taxes.
7. To see if the Town will raise and appropriate the sum of \$3,000 for the purpose of building new road between Wilton and Greenville, **providing** the state will raise a like amount, or take any action relating thereto.
8. To see what action the Town will take relative to rebuilding a certain section of road on Abbot Hill near the residence of Joshua F. Frye, and raise and appropriate money for the same.
9. To see if the Town will take any action relating to an increase of pay for the members of the Wilton Fire Department and raise and appropriate money for the same.
10. To transact any other business that may legally come before said meeting.

Given under our hand and seal this 19th day of February, 1927.

W. E. HICKEY,
D. R. BATCHELDER,
JAMES E. BURKE,
Selectmen of Wilton.

Report of Selectmen

To the Citizens of Wilton:

The Selectmen of Wilton submit the following report:

During the past year the Selectmen were ordered to re-assess the taxable property in town. The board did the work to the best of their ability and with the object of equality as their aim. The property was as a whole raised somewhat in value, based upon recent sales, and we are of the belief that it is now assessed more equal than formerly and while there are a great many who believe taxes are too high, and this belief is shared in by your board, our only relief is rigid economy. With the ever increase in cost of public work, especially in schools and all kinds of highway maintenance, it is difficult to see where much reduction can be made in the near future.

One of our large items of expense is in the maintenance of highways. The state engineer estimates the cost of maintaining our state aid and trunk line roads and we are asked to raise as our share \$2900.00 for state aid and \$3100.00 for trunk line maintenance. We are asked to raise the sum of \$2677.50 to construct permanent highways. Also the sum of \$3,000.00 additional for the Greenville road, making a total of \$11,677.50 for state aid roads alone. An additional sum must be raised for the care of the town roads and bridges. It would appear from the above that the Town of Wilton is facing considerable expense in our future highway cost. How to reduce our tax rate under that condition is rather difficult.

We have, during the past few years, had considerable outstanding bills in the highway department, caused by snow work. During the past year these amounted to nearly \$4,000.00, leaving the Agent very

little money to work with and causing an overdraft in his department. This condition should not exist as it causes irregularity in our financial affairs especially in payments of temporary loans. As said loans must be paid in excess of outstanding taxes and bills due town, we strongly urge that in appropriating money for town mainteance this year that sufficient money be raised to cover outstanding bills. We also recommend that our highway appropriations be separated into three parts, general maintenance, street repair and snow removal. In the past our highway agent has been unable to determine the exact amount available owing to cost of snow removal. This matter should receive your attention and overdrafts from the highway and other departments should cease.

We have had to make during the past year different arrangements relative to our police station. In the past the rent has been \$60.00 per year. The new owner would not renew the lease under existing conditions. The conditions demanded were for a rental of \$100.00 per year and that the town must install some sanitary relief. As no other place was available, this has been done and without doubt was a much needed improvement. This, together with the cost of blinker, has add-ed some to the expense of the police department, but it is an expense which will not have to be met each year. The town is now paying \$100.00 per year for rental and furnishes the lights.

During the year the town hall vestibule was painted and the woodwork cleaned and varnished. The hall, with the exception of the supper room, is now in good condition but the chimneys will need some repair during the coming summer.

Owing to overdrafts, especially in the highway department, we have a deficit. This must be attended to at our coming meeting and sufficient money appropri-ated to cover said deficit.

LIST OF RECOMMENDATIONS FOR 1927-1928

Officers' salaries	\$1400 00

Report of Fire Wards

The following is respectfully submitted:

During the year just closed the town lost by death John F. Herlihy, a member of the Board for several years. By his death the town has sustained a loss, as Mr. Herlihy was always a faithful and efficient member of the Department.

Although a number of still alarms were sent in for chimney fires, we did not have but three alarms for buildings.

March 19. Fire alarm at 1.30 p. m. for fire at G. G. Draper's house. Early discovery and prompt response averted serious loss.

January 9. Alarm sounded at 10.30 a. m. for fire at Dr. Hatch's Garage. Automobile total loss. Damage to building about three hundred dollars.

February 14. Alarm sounded at 5 a. m. for fire in David Whiting elevator. Prompt response averted serious loss. No damage to building.

We had 20 chimney fires in 1926 and we think a lot of these could be avoided if people would clean their stove funnels in the fall and spring.

D. M. BRENNAN,

T. A. WELLS,

R. E. HOPKINS,

Fire Wards.

Report of Trustees of Trust Funds

JOSHUA F. FRYE, Chairman

WILLIAM L. STANTON, Clerk

DAVID WHITING, Treasurer

There are 44 Trust Funds in the hands of the trustees. Three of these trust funds have been received during the year for the care of lots at Laurel Hill Cemetery.

There has been paid to Edward W. Hesselton \$91.50 for the care of cemetery lots during the year.

A statement is presented showing the amount of each fund, with the income and expense of each fund and where these funds are deposited.

Respectfully submitted,

JOSHUA F. FRYE,

For the Trustees.

Report of Cemetery Committee

The grounds of the several cemeteries have been well kept and are in good condition. There are no outstanding bills contracted by the Committee. All the income of our special depositors has been expended as seemed best on individual lots and same are in good condition.

The committee would suggest that the sum of \$500.00 be raised and appropriated for general care and upkeep of the several cemeteries. Owing to a severe wind storm in the summer there were 12 of the large trees blown over and did some damage and we have not been able to get the fence replaced, which will have to be done in the spring and the grounds leveled off. I think the sum mentioned will be sufficient to make all repairs and keep a caretaker during the summer months.

EDWARD W. HESSELTON.

Report of Water Commissioners

The care and maintenance of the water system has been largely one of routine. About the usual number of leaks have occurred, and have been promptly attended to.

The reservoir was given a thorough cleaning in May under the supervision of Mr. Thomas Broderick. The main pipe on Pine Valley street has been extended over the town line into Milford about fifty feet.

Four new services have been added during the year.

The revenue shows an increase over any previous year.

We would strongly advise water takers to read the meters on their premises at least once a month. In this way they can easily determine whether an unreasonable amount of water is being used. It is practically an unknown occurrence for the type of meter the town uses to over register. Therefore, if your meter reading is excessive, the fault is with your pipes or fixtures and the remedy obvious.

**GENERAL EXPENSE AND CARE OF WATER
WORKS SYSTEM**

**THE THIRTY-SEVENTH REPORT OF THE
LIBRARIAN OF WILTON PUBLIC LIBRARY
For the Year Ending January 31, 1927.**

The Library has been open 150 days during the year. It was closed five regular library days because of holidays and one day because of a break in the water pipes.

There has been an increase in the circulation of magazines this year but quite a decrease in the circulation of juvenile books, which has brought the total circulation down 664 less than last year. During the school year the circulation increases but the summer months are quite dull. The summer residents do not patronize the Library to any great extent.

A collection of about 500 books, which once constituted a library on Abbot Hill, has been presented to this Library. Some of the books are quite out of date and will not be catalogued. Others can be used, and some are interesting because of age. In the collection were 41 town histories, which is a valuable addition to the histories previously catalogued. There are now on the shelves 72 town histories. The gift to the Library of these books is much appreciated.

A framed portrait of Hon. D. A. Gregg, the donor of the Library Building, has been presented to the Library by his family and now hangs in the Reading Room, a companion picture to that of Hon. C. H. Burns, who was the first President of the Board of Trustees.

Respectfully submitted,
 BESSIE F. BALES,
 Librarian.

REPORT OF THE TRUSTEES

The foregoing report of the Librarian covers the years activities and the trustees have but little to add. Through the efforts of our board member, Mr. Emerson, the various heirs of the late Albert C. Townsend waived their rights to certain articles, pictures, books, etc., that Mr. Townsend had previously expressed a wish to have presented to the Library at his decease. These various pieces will be suitably displayed and marked in the Historical Room. A portrait of the late Major D. E. Proctor, for many years President of our board, has been presented by his children.

The south room in the basement has been in active use by the Red Cross Chapter, both for Clinical and other meetings.

The Trustees are glad to notice an increased interest in the Red Cross activities and pleased to have the room serve so worthy a cause.

DAVID WHITING,
For the Trustees.

SCHOOL CALENDAR, 1927-1928

Fall Term: All schools, 15 weeks, September 5 to December 16.

Rest of Year: All schools, 7 weeks, January 2 to February 17. All schools, 7 weeks, February 27 to April 13. High School and Grades VII and VIII, 9 weeks, April 23 to June 22. All other schools, 7 weeks, April 23 to June 8.

Holidays: September 5, November 24 and 25, May 30.

NO SCHOOL SIGNALS

Three long blasts of the whistle sounded twice at 7.30 o'clock A. M. indicates that there will be no sessions of the schools during that forenoon. The same signal at 12.30 P. M. indicates that there will be no sessions in the afternoon.

REPORT OF THE SCHOOL BOARD

The Wilton School Board submits the following report:

Our superintendent, Mr. Vernon S. Ames, was elected a year ago for two years and has continued the excellent work he has already done in our schools. We were also fortunate in retaining the services of Mr. Walter L. Mason as Headmaster for another year. There have been several changes in the teaching staff which Mr. Ames and Mr. Mason comment on in detail in their reports. There is a natural drift of teachers to the better paid positions in the cities after they have reached the pay level for towns of this size. There would seem to be no fundamental reason why a small town should not compete as actively for teachers as the cities, but they do not and the School Board have therefore kept the salaries of teachers comparable with those in towns in New Hampshire of similar size.

The Abbott Hill, Wilton Center and Intervale Schools have been continued with about the same attendance as in previous years and we should judge would so continue next year although at Intervale the expected attendance appears small. The 7th and 8th grade pupils from these districts are attending the village school to secure the advantage of manual training and domestic arts.

In the village school, we considered the combination of any grades would give too large a number to teach effectively in one room, so engaged an additional teacher, so we now have one teacher for each of the first six grades. We have just received notice of state aid for this year which is increased to cover the expense of this additional teacher. We consider this to be the most forward step made in our schools in recent years. It gives the teacher time to not only carry forward the class as one unit but also to give special attention to those pupils who are not making good progress.

in certain subjects, often with the result that these pupils are promoted instead of being obliged to go over the entire year's work again.

In the High School we have continued the same courses, namely, Academic, Domestic Arts and Mechanic Arts, and with the same layout of studies. The only especial lack we notice here is that many colleges require for preparatory work either two years of French and two years of German or three years of either one, whereas we are only offering two years of French. These subjects must be covered in college in any event and the lack of sufficient preparation means a handicap. We are working on a schedule which will permit the offering of three years of French.

In our budget for next year the item of insurance is large, but these premiums do not come uniform in amount each year, but depend on the amount of insurance expiring which must be renewed. We have reduced the estimate for new equipment to \$500 because we do not need to replace as many desks as we have been doing in the past two years. The actual debt reduction is \$2000, but we have \$1000 on hand, which by special vote of the district a year ago was to be applied to the reduction of debt. The estimate for scholars' supplies has been increased to cover the materials used by the increasing number of boys taking mechanic arts in the 7th and 8th grades and high school.

The revenue from other sources than taxation should be the same for high school as last year. For elementary schools there will be an increase of about \$125 in state aid. We have no assurance that there will be any elementary tuition pupils. The increase in state aid would have been over \$1600 were it not for the fact that the increase of over \$325,000 in the equalized valuation of Wilton automatically increases the amount of the \$5 tax more than \$1600 and decreases the state aid by the same amount.

According to our state laws a school district must raise a minimum of \$3.50 per \$1000 of equalized valuation for elementary schools and either spend it or turn any unexpended balance over to the state. However, any amount they spend over \$5.00 per \$1000 is returned to them in the form of state aid, provided all their expenditures are in line with what the state board of education considers proper. You will note in our budget that in addition to state aid and the 05.00 per \$1000, we have been spending about \$3000 and this year have budgeted \$2908. This is nothing special in this district, since 170 out of 250 towns run over the state aid and \$5.00 tax amounts in like fashion. It figures out in terms of tax rates as follows:

	\$5.00
State aid	1.73
Excess to raise	1 64
	<hr/>
Total cost	\$8.37

This amount of \$2908 covers the difference in pay of high school and special teachers in our 7th and 8th grades instead of having regular grade teachers and amounts to about \$400 per teacher or \$800 for the two. Our share of the salary of music teacher is \$580. We are not allowed transportation from West Wilton to Wilton Center as it is within the two mile limit and we spend for this \$360. Our share of the nurse is \$400. A number of smaller items with some credits make up the balance.

A considerable saving could therefore be made by eliminating the domestic arts and mechanic arts in 7th and 8th grades and High School, also the teaching of music with a special teacher, the school nurse and similar activities. The School Board have considered, however, that the advantages in education and health justify these expenditures and have included them in our budget.

We are especially well pleased with the work Miss Ethel Frye has done in the promotion of health in the schools and believe that her engagement by the town for general health work has enabled her to benefit many children under school age. It is certainly as desirable for the children up to six or seven years old to receive attention as after that time.

We have continued the dental clinic work under the direction of Dr. H. S. Lawrence.

We have been greatly pleased by the interest shown by parents and townspeople in the various performances and exhibition by the pupils and by the numerous visits to the schools. We sincerely trust that this interest will continue and develop as it gives the greatest of inspiration to pupils and staff.

E. J. ABBOTT,
JESSIE L. HATCH,
ROBERT G. RING.

BUDGET

Budget of proposed expenditures in the School District of Wilton for the fiscal year July 1, 1927 to June 30, 1928, and recommendation of sums to be assessed.

ESTIMATED EXPENDITURES

Administration, Fixed Charges and

Statutory Requirements:

ANNUAL STATEMENT CONCERNING SCHOOL DEBT

At the date of our last report our total indebtedness was twenty-four thousand, five hundred dollars. This included eleven thousand-dollar notes of the first series, and of the second series ten thousand-dollar notes and seven for five hundred each. July 1, 1926, one note of the first series was paid, leaving a balance in this series of ten thousand dollars, one note maturing July 1 of each year until all have been paid.

On the second series one thousand-dollar note was paid January 1, 1927. The payment of this series is distributed over a period of seventeen instead of fifteen years.

Our total indebtedness is now \$22,500, requiring, until amount is further reduced, interest to the amount of \$1,125 annually.

Respectfully submitted,

EMMA C. CRAM,
School District Treasurer.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Wilton:

I submit my fourth annual report as Superintendent of Schools.

School Organization

The plans proposed in the last annual report have been put into effect and we now have a teacher in charge of each of the six lower grades in the village school, and six teachers for the seventh and eighth grades and high school. This is an ideal arrangement and we have found it possible to carry it out without serious crowding in any part of the building.

Three teachers, Miss Johnson, Miss Sweet and Miss Ellen Doherty, who had taught here successfully for a number of years, took other positions last fall. The teachers who took their places and the additional teachers needed to carry out the plan referred to above are as follows: In the seventh and eighth grades and high school: Miss Bernice Clement, a graduate of the University of Maine, with one year teaching experience; Miss Evelyn Shaw, who completed the three year Junior High course at Keene Normal School last June; and Miss Lilla R. M. Ritcey, who graduated from Boston University last June. For the sixth grade we secured Miss Beulah Fowler, a graduate of the Plymouth Normal School in 1924, with two years teaching experience in Whitefield; for the fifth grade, Miss Bertha Whelpley, a graduate of Keene Normal School in 1924, with two years experience in New Ipswich; for the fourth grade, Miss Ernestine Bolduc, who had had four years experience in rural schools and several summer school sessions and was graduated from the Plymouth Normal School last June. The music supervisor, Miss King, accepted a similar position in Nashua, and

in her place we engaged Miss Blanche Bowden who graduated from the New England Conservatory of Music last June.

We have a strong corps of teachers and the schools are making good progress. The only interruption during the year has been in the third grade. Miss Mary Doherty is on leave of absence for the last half year in order to complete her studies at Normal School, and we are carrying on the work in her room with cadet teachers from the Normal School.

School Activities

The School Exhibit has come to be an annual affair and affords us an opportunity to show the townspeople a little of the work that we are doing. The Musical Entertainment has also become an annual event and this year we planned it in such a way that all of the children in the schools received the benefit of the preparation for and participation in the program.

Medical Inspection

The medical inspection was carried out last November on a different plan from previous years in that certain groups of pupils, according to grade, were assigned to the three physicians who made their examinations independently of each other, with the assistance of the school nurse, Miss Frye. The summary of their reports is as follows:

Total number of pupils examined	358
Defective Vision	19
Malnutrition	3
Defective Hearing	2
Anaemia	2
Cardiac Disease	1
Skin Disease	7
Pediculosis	2
Orthopedic Defects (Posture)	13

Defective Teeth	194
Enlarged Tonsils	62
Adenoids	21
Defect in Breathing	2
Enlarged Glands	2
Unvaccinated	7

Number of treatments recorded between the 1925 and 1926 inspections:

Vision	10
Teeth.	140
Tonsils and Adenoids	30
Vaccinated	13

The report of the Nurse gives a detailed account of her work and includes her follow-up of the last medical inspection.

Supervision

The statistical report following shows 282 supervisory visits made during the year as compared with 314 the previous year. Not all of the supervisory work is done in actual school room visits but considerable is done by means of standard tests. The results of a series of standard test and remedial teaching in language errors carried on last year illustrates what we are trying to do by this means. The test was given in October 1925 to all fourth grade children. Specific suggestions were given the teachers for remedial teaching and the test repeated in December. After another period of remedial teaching, a test was given in March and again in May. Following the summer vacation and a period without specific instruction on these particular errors, the test was given again in November 1926. The table below shows the per centage of all the fourth grade children in the district who scored A, B, C, D, and E. In each test the gain was steady throughout the period of teaching and was permanent as indicated by the test given six months later.

Language Error Tests—Fourth Grade 1925-1926	A	B	C	D	E
Percent scoring					
October 1925	27	21	26	17	9
December 1925	40	28	20	11	1
March 1926	59	25	10	5	1
May 1926	71	20	7	2	0
November 1926	73	19	5	3	0

School Attendance

The purpose of the revision of the School Laws in 1919 was to equalize school opportunities. School attendance is only one aspect of this problem but it is an important one. Schools are required to be open at least 36 weeks each year and in the school year 1925-'26 no school in the state fell short of this requirement. However, the actual time schools were in session in the 252 cities and towns varied from 328 to 368 half days. Schools were in session 351 or more half days in 48 cities and towns, but 16 of these have 37 or 38 weeks instead of 36. At the other extreme were 40 towns with from 328 to 340 half days. The remaining 164 towns varied from 341 to 350 half days of school out of a possible 360. The six towns in this Supervisory Union were in this middle group. The average in Wilton was 349.

I proposed to the teachers at the opening of schools last fall that all days lost on account of sickness, weather conditions, etc., during this school year should be made up so that we might be sure of at least 350 half days actually in session. In many cases we hope to exceed that number. Some School Boards are now making contracts with their teachers calling for 360 half days with allowance for Teachers' Institutes only. This is one way to increase school opportunities without increasing the cost.

Character Education

This section is based on a Chapter in the biennial

report of the State Board of Education, just published.

We have read and heard much discussion in the past few years on the prevalence of lawlessness and immorality. This has always been so, for every generation believes that young people are more thoughtless and less law abiding than formerly. So called "crime waves" have swept our country from time to time but there is nothing to indicate that they affected the young people in any greater proportion than adults. On the other hand it is a matter of record that the number of misdemeanors and petty infractions of the law by children has decreased year by year. Exact comparison is difficult but I am convinced that, if we could make an accurate comparison of the children of today and those of say fifty or one hundred years ago as to their behavior in school, on the street, or elsewhere, such comparison would be very favorable to the present generation.

Professor Bagley of Columbia University has attempted to determine the relative standing of the states of the Union as to morality and has reported the following tests:

1. He finds that in the list of 48 states New Hampshire stands second (being surpassed only by Vermont) in having the smallest proportion of its population committed to the federal penitentiaries.

2. New Hampshire stands first in the list in having the smallest proportion of its resident population committed to state prisons.

3. New Hampshire stands first in the list in having the smallest ratio of homicides to the population.

4. New Hampshire stands third in the list (being surpassed only by New York and Nevada) in having the smallest proportion of drafted soldiers free from social diseases at the time of registration. Many other comparisons might be suggested but so far as I know have not been accurately investigated.

Some people, disturbed by what they believe to be an unusual laxity in morals, have insisted that the remedy lies in the introduction of religion into the schools. There has never been a law in New Hampshire requiring instruction in religion or the use of the Bible in the schools. But by common custom some part of the school day in practically every school in the state has been devoted to exercises of a devotional character, including the use of the great psalms and prayers and daily reading from the Bible. There is no doubt that these exercises are valuable in the development of character and they should be continued as one of the means by which the schools can encourage good behavior, but we must always guard against the use of any material that favors any one religious belief or creed above another.

As a matter of fact an increasing amount of attention is given in our public schools to definite instruction in the civic and personal virtues. Many outlines have been prepared and used for this purpose, and a new and more comprehensive program in character education has just been prepared by a committee of experienced public school teachers in this state, which is about to be placed in the hands of the teachers.

However effectively the principles of character may be imparted by direct instruction, we recognize that much, if not more, depends upon the children's conscious or unconscious imitation of parents, teachers, and associates. In the selection of teachers high moral character is a prime consideration. No teacher can be certified to teach in New Hampshire until her character is vouched for by dependable people, and her certificate may be cancelled at any time for immorality.

"Character depends upon ideals, but in its expression it is shown by daily reactions and habits. Our schools inculcate character by daily routine and effective administration, by insistence on regular and punctual at-

tendance, upon diligence and an attitude of respect, by arithmetic and history, and organized play in which the teachers and pupils work together."

In closing I wish to express appreciation of the loyal co-operation and support of the teachers, members of the School Board, and citizens.

Respectfully submitted,

VERNON S. AMES,

Superintendent.

Wilton, N. H., February 14, 1927.

ROLL OF PERFECT ATTENDANCE

Pupils who have been neither absent nor tardy for: Six consecutive years, Rose Lavigne; 5 consecutive years, Joseph Jarest; 2 consecutive years, Ina Davidson, Otis Fairfield, Alice Gregoire, Frederick Herlihy, James Herlihy, Thomas Herlihy, Edgar Holmes, Thomas Hurley, Arthur Jarest, Charles Langdell, John Makie, Marion Putnam; Irja Salmi.

The school year 1925-1926: Dora Ames, Arthur Bryan, Lena Frye, Francis Harwood, Maurice Herlihy, Thelma Holmes, David Jarest, Waino Lammi, Theodore Langdell, Barrett Laponsie, Regina Laponsie, Marion Liberty, Robert McGrath, Arthur Nichols, Dorothy Nichols, Edward Nichols, Elva Oja, Katherine Pelletier, Margaret Pelletier, Mary Pelletier, Lucille Robbins, Barbara Whiting.

HIGH SCHOOL GRADUATING CLASS OF 1926

John T. Conrad
John H. Frye
Howard F. Mason

Rosie H. Curtis
Mary R. Hurley
Katherine McCarthy

HEADMASTER'S REPORT

To the Superintendent and School Board of Wilton:

I herewith submit my sixth annual report as headmaster of Wilton High School.

Due to sickness the per cent of attendance in the high school for the first half year was only 95.3. On the other hand tardiness, which has been disturbing in the past, has been nearly eliminated this year.

School activities have been successful and well attended this year. The senior play, directed by Miss Clement, was a credit to the pupils and those who helped them.

The boys and girls on our basketball teams are rather young and light of weight but have followed instructions and played clean. They have been ably coached by Miss Shaw and Mr. Hurley. Both coaches report that the pupils have conducted themselves so well that it has been a pleasure to work with them.

Of the pupils enrolled thirty-four are in the Academic Curriculum; seventeen in the Domestic Arts Curriculum; and fifteen in the Manual Arts Curriculum.

Of the six graduates in the Class of 1926, two attend Keene Normal Schol; one, Plymouth Normal Schol; one, Dartmouth College; one, University of New Hampshire, and one St. Anselms College.

Although the French and Latin room was given over to the fifth grade work at the beginning of the fall term, the high school has been very comfortable. The addition of one teacher to our force has made it possible to keep the seventh and eighth grades separate from the senior high. I am sure this has helped with discipline and has already developed a higher standard of scholarship. Classes have been made smaller than more efficient work might be done. The teachers' time is divided as in Table No. 1.

TABLE NO. 1

	Periods Teaching	Periods in charge of study rooms	Free Periods
Miss Clement	30	5	0
Mr. Mason	27	5	3
Miss Ritcey	34	1	0
Miss Shaw	30	5	0
Mrs. Shea	28	0	7
Mr. Streeter	28	7	0

Again I wish to thank the parents and pupils for their interest and help, the teachers for their cooperation, and the superintendent and school officials for their kindness.

Respectfully submitted,

WALTER L. MASON,
Headmaster.

MUSIC SUPERVISOR'S REPORT

To the Superintendent of Schools:

Herewith I submit my report for the first six months as Supervisor of Music in Wilton.

With the assistance of the daily lesson by the teacher in each room except the High School where the Supervisor's weekly visit suffices, gratifying results have been accomplished in each grade in respect to chorus or group singing. However, in the lower grades a large per centage of the work is done by giving each pupil individual attention to correct monotones and tone-deaf children. Ear training, solfeggio and theoretical drills constitute a part of the singing periods. Facility in music reading is one of our aims, to establish an independence in singing which permits of part singing. Two-part singing has been introduced in the Sixth and Seventh Grades, three-part in the Eighth and High School.

The rural schools as nearly as possible are following the outline of the work of the graded schools.

An orchestra and mixed Glee Club have been organized, which meet once a week.

New books have been purchased for the Junior High School, the Progressive Music Series Book Three, and several numbers in octavo form for Junior High and High School.

I wish to express my appreciation of the splendid support and cooperation of the teachers, members of the School Board, Superintendent, and parents, which is indeed a factor for good music.

Respectfully submitted,
BLANCHE BOWDEN,
Supervisor of Music.

February 18, 1927.

REPORT OF SCHOOL NURSE

To the Superintendent of Schools:

My first annual report as school and district nurse is respectfully submitted.

To every parent the health of the child is of first importance. The Wilton schools have adopted this attitude toward the children in their care, and are endeavoring to put it into practice.

In October 1926, 358 children of the village and rural schools were examined by the three local physicians with the nurse assisting. 194 children were found with defective teeth, 62 with defective tonsils, 21 with adenoids, 19 with defective vision, 2 with pediculi, and 7 were unvaccinated.

Since October 1925, 87 children have received dental care at the clinic conducted in the school by Dr. Lawrence, 35 have had their tonsils and adenoids removed, 10 have had defective vision corrected, 10 treated for pediculi and 13 have been vaccinated.

According to the United States Bureau of Education, about one-half of the 4,000,000 children who enter the first grade in school, fail to reach the second grade on time. Their failure costs the United States \$150,000,000 in taxes. Much of this waste is due to remediable physical and mental defects in the children. It is a matter of economy that the children be as free as possible from defects which hamper their efforts, or whether they exhibit the alertness and energy for work which comes only with the best of food, plenty of sleep, and other conditions of good health. But more important than economy is the formation of health habits which will go far toward making a success of life.

Therefore the work of the school for health of the

child includes health examination and inspections, health habit training, acquaintance with physiology and hygiene, sanitation, and physical education.

A Pre-school Clinic was held in July when twenty-two children received a free physical examination with advice from their family physician, that they should enter school for the first time in as fit a condition as possible.

All health habits taught to the school child apply also to the child from babyhood. Well Baby Conferences are being held monthly, where the weight of the child, which is a fair index to a baby's health, may be carefully watched.

Twenty-four classes in Home Hygiene and Care of the Sick were conducted with the eighth grade girls and twelve classes with the Sophomore girls, and other classes of thirty-four adults have been organized.

Each of the grade rooms has enrolled with the Junior Red Cross, its object being, "Fitness for Service."

Seven hundred (700) home and school visits have been made. Absentees are followed up to find the cause of the absences and in case of illness the family physician is advised.

Seventy (70) children have been excluded for symptoms of contagious diseases.

From January 1926 to January 1927, 850 nursing visits have been made where bedside care was given under the direction of the family physician. From these visits \$423.75 was collected for the Red Cross Nursing Association, \$123.50 of this was paid to the Association by the Metropolitan Life Insurance Company for nursing service to their policy holders.

\$148.25 was paid by the A. R. C. Nursing Association to Mr. Quigley for transportation to and from cases, and \$72.75 was paid by the school board for transportation in the school work. Two trips are made

each month to the six schools in New Ipswich. One of these trips is paid for by the Nursing Association and the other by the school board of New Ipswich.

The hearty co-operation which the physicians have given me in my work is very much appreciated, and my work among the people of Wilton has met with a genuine open-hearted hospitality and friendliness. If anything worthwhile has been accomplished it is they who have made that work possible.

Respectfully submitted

ETHEL V. FRYE,

American Red Cross Public Health Nurse.
Wilton, N. H., February 11, 1927.
